EVENT DESCRIPTION: This 90 minute showcase will be a creative and explosive presentation highlighting the choreographic talents and passion for dance by Bermuda's young people. Through this initiative, young performers will be encouraged to strive for their own artistic excellence.

This initiative will also support youth participation in all genres of dance. We have received submissions from a diverse group of young people in dance genres representative of hip hop, ballet, tap, modern, dancehall, inspirational and salsa.

INTERNATIONAL GUEST PERFORMER: To facilitate further collaboration and development as part of this initiative we are welcoming Mr. Jose Junior Tena from NY to teach the young choreographers a workshop as well as to guest perform in the showcase. Mr. Tena is a young choreographer himself who has been very successful with his performance career (see biography on next page).
