

“The status quo is the enemy”

2014 Bermuda Budget Highlights

“The status quo is the enemy! If we don’t change, there will be no improvement. If we don’t change, we will only get more of the same...” **The Minister of Finance The Hon. Bob Richards, JP, MP**

Points of interest:

Summary

- Deficit of \$267m, down from \$332m
- Net debt \$2.185b, up from \$1.988b
- \$70m (7%) reduction in current account expenditure excluding interest, sinking fund contributing

Revenue

“We are being conservative with our revenue estimates”

The revenue forecast for 2014/15 of \$901.7m reflects very little change over the 2013/14 revised estimate of \$892.6m. This minimal growth is concentrated in tax on sale of land to non-Bermudians, customs duty, stamp duty and payroll tax.

Other specifics:

- No changes in tax rates apart from a 5% biennial adjustment of most Government fees
- Subsidies currently in place for the hospitality, restaurant and retail sectors will remain in place for the next fiscal year
- Tax initiatives started last fiscal year will also continue into the next fiscal year: the reduction of taxes on the purchase of Bermuda property by non-Bermudians and tax breaks for employers who hire unemployed Bermudians

Debt

- Gross public debt as at March 31, 2015 will stand at \$2.185bn and debt, net of the Sinking Fund, will stand at \$1.988bn
- In 2014/15 Government will draw from the Sinking Fund to pay off \$120m in private placement notes, reducing debt costs by \$7m

Growth

- The declining population in Bermuda is inhibiting economic growth. In order to grow GDP the Minister highlighted the need to increase the resident population through liberalisation of immigration policy to allow easier entry of persons with financial or intellectual capital
- In order to obtain sufficient capital to recover, we need to look outside Bermuda through reconsideration of 60/40 rule

“The Minister outlined the serious position that Bermuda is facing and the need to make changes. He outlines an expected 15% cost reduction plan over 3 years and is counting on SAGE Commission initiatives plus future revenue growth to bring the budget back in balance.”
