Dear Opposition Leader Bean,

On Thursday, May 1, 2014, you and the Premier, the Hon. Craig Cannonier, were presented with "The People's Manifesto" on behalf of the People's Campaign. Thousands of Bermudians marched from Victoria Park to the House of Parliament in support of the People's Campaign. The march on Parliament culminated after six town hall meetings where there was standing room only.

It was the expectation of the People's Campaign and the thousands of Bermudians who have supported our initiative, that you would have shared the People's Manifesto with your Parliamentary colleagues and the Executive members of the Bermuda Progressive Labour Party (PLP), discussed the contents and then shared with us how the PLP intends to move forward to address the concerns outlined in the People's Manifesto.

The People's Campaign, has been waiting patiently for the PLP to address the concerns of the people of Bermuda, that is, "Equality, Jobs and Justice". But to date we have had no response to the People's Manifesto. For ease of reference, we outline below the major issues concerning the people of Bermuda as shared with us over the last several weeks.

- | | |
|-----------|--|
| Equality: | All people are equal and entitled to equal treatment; |
| Jobs: | All people are entitled to a job with a livable wage; |
| Justice: | The Government is the servant of the people and the people of Bermuda entrust the Government to ensure that all of its people are treated equally, have equal opportunities, and must have equal protection under the law. |

The People's Campaign is hopeful that the above concerns presented on behalf of the people of Bermuda will be taken seriously and acted upon by our Parliamentary representatives. As stated in our Manifesto, "the people of Bermuda are entitled to expect that those who are entrusted to lead them will be

guided by the will of the people, and make decisions based upon priorities that are consistent with expectations, hopes and aspirations of ALL of the people”.

The organizing Committee of the People's Campaign is willing to meet with you at your earliest convenience to determine the best way to advance the People's Manifesto in an effort to secure "Equality, Jobs and Justice" for the people of Bermuda.

Sincerely,

Rev. Nicholas Tweed
