Bermuda Marine Forecast

This forecast covers an area out to 25 nautical miles from the coastline
 Issued at 11:30 am - Wednesday, September 16, 2020
 The next scheduled update will be issued at 4:30 pm

[Small Craft Warning](#) (Valid for This morning through This afternoon)
[Thunderstorm Advisory](#) (Cancelled)

Marine Synopsis - A stationary frontal boundary will linger in the area today maintaining isolated to scattered showers with light to moderate near easterly wind. High pressure will build in thereafter and promote a southerly breeze and generally settled conditions from Thursday into the first half of the weekend. Moderate seas will build over the weekend along with southeasterly swell as Hurricane Teddy strengthens to our distant southeast.

Today - Winds easterly 8 to 12 knots... Isolated to scattered showers and a chance of thunder with fair to poor visibility... Seas inside the reef 2 to 4 ft... Outside the reef 6 to 9 ft, decreasing during the afternoon... Sunrise: 7:04 am.

Tonight - Winds easterly 8 to 12 knots, veering southeasterly 5 to 10 knots towards evening, tending south-southeasterly by dawn... Scattered showers with fair to poor visibility ease to isolated showers with fair visibility later overnight... Seas inside the reef 1 to 3 ft... Outside the reef 5 to 8 ft... Sunset: 7:22 pm.

Thursday - Winds south-southeasterly 5 to 10 knots, veering southerly by late morning, increasing 8 to 12 knots overnight... Isolated showers with fair visibility, mainly early... Seas inside the reef 1 to 3 ft... Outside the reef 4 to 7 ft, decreasing during the evening inside the reef 1 to 2 ft... Outside the reef 3 to 6 ft... Sunrise: 7:04 am; Sunset: 7:21 pm.

Friday - Winds southerly 8 to 12 knots... Chance of isolated showers with mainly fair visibility... Seas inside the reef 1 to 3 ft... Outside the reef 4 to 7 ft, increasing during the night... Sunrise: 7:05 am; Sunset: 7:20 pm.

Saturday - Winds southerly 8 to 12 knots, backing southeasterly by evening then easterly overnight... Southeasterly swell developing... Seas increasing, inside the reef 2 to 4 ft... Outside the reef 6 to 10 ft... Sunrise: 7:05 am; Sunset: 7:18 pm.

Sunday - Winds easterly 10 to 15 knots, increasing 15 to 20 knots by evening, then 20 to 30 knots gusts 40 knots overnight... Isolated showers with fair visibility becoming scattered to widespread showers overnight with poor to very poor visibility, chance thunder. Building southeasterly swell... Seas increasing, inside the reef 3 to 5 ft... Outside the reef 10 to 16 ft... Sunrise: 7:06 am; Sunset: 7:17 pm.
