Bermuda Public Forecast

Issued at 11:30 am - Wednesday, September 16, 2020

The next scheduled update will be issued at 4:30 pm

[Small Craft Warning](#) (Valid for This morning through This afternoon)
[Thunderstorm Advisory](#) (Cancelled)

Headline - Cloudy skies as a few showers linger...

Public Synopsis - A stationary frontal boundary will linger in the area today maintaining the potential for shower chances with a near easterly breeze. High pressure will build in thereafter and promote a southerly breeze and generally partly cloudy skies from Thursday into the first half of the weekend. We continue to monitor Hurricane Teddy to our distant southeast.

Today - Bright but cloudy, chance of showers decreases, chance thunder... Winds easterly light to moderate... High near 28°C/82°F. [Clear sky UV Index forecast - 8 or very high.](#)

Tonight - Mostly cloudy, a shower or two early, decreasing later... Winds easterly light to moderate, veering southeasterly light to moderate towards evening, tending south-southeasterly by dawn... Low near 26°C/78°F.

Thursday - Decreasing cloud with a shower or two, mainly early... Winds south-southeasterly light to moderate, veering southerly by late morning, increasing light to moderate overnight... High near 29°C/84°F, low near 26°C/78°F. [Clear sky UV Index forecast - 8 or very high.](#)

Friday - Mix of sun and cloud... Winds southerly light to moderate... High near 29°C/85°F, low near 26°C/79°F.

Saturday - Mostly sunny... Winds southerly light to moderate, backing southeasterly by evening then easterly overnight... High near 29°C/85°F, low near 26°C/79°F.

Sunday - Sunny periods, occasional showers developing overnight... Winds easterly moderate, increasing moderate to strong by evening, then strong gusts gale force overnight... High near 29°C/84°F, low near 26°C/78°F.
