THE COMPETITIVE EDGE ~ JANUARY 2022

Erinn Cann wins Silver Medal for Bermuda.

## Bermuda Sanshou Association

Garon Wilkinson, the Bermuda Sanshou Association president, has hailed the island's outstanding showing at the Phoenix Wushu Nationals in Phoenix, Arizona from December 17 – 19th 2021.

The trio of Errin Cann, Kaelin Cox and Kallan Todd did Bermuda extremely proud, having secured three medals among them, including two gold, competing in the event held at the Phoenix Convention Centre. Cann, the youngest member of the team at age nine, won the Jianshu (straight sword) division and silver

in the Changquan (Longfist) division, respectively. Cox won the island's remaining gold competing in the men's traditional Nan Quan (southern fist) division. Kallan Todd, 15, also impressed in his debut san da fight against an opponent twice his age in Tyler Bristow of Baltimore. "He fought his first Sanda fight against an adult and so it wasn't an official fight, it was an exhibition match," Wilkinson added. "He went down 2-0 but executed very well. "It was great to see him display his skills as he did against obviously

a much matured seasoned athlete. It served as a great experience and we are looking forward to Kallan developing in the sport of Sanda,” he said.

Cann also thrived competing in the US Wushu Mock Trials, which were held at the same venue, placing fourth in Jianshu and ninth in Changquan, respectively. “The US Wushu Mock Trials is all national team athletes and so she was fourth and ninth against the US national team athletes, which is extremely good,” Wilkinson said. “The US Wushu Mock Trials gave the US national athletes the chance to perform in front of qualified judges and used the approved competition floor.”

The overall experience was ideal preparation for Cann’s bid to qualify for the 2026 Youth Olympics in Dakar, Senegal. “The whole trip was kind of surrounded around her in our push for qualification at the 2026 Youth Olympics that have been postponed from 2022,” Wilkinson said.

“Wushu is now going to be an official sport. The Bermuda Olympic Association, obviously because of Wushu being a part of the Youth Olympic programme, has supported our development programme so we have had athlete development as well as coaching development since September of 2020.”

Cann also gained valuable exposure prior to the Phoenix Wushu Nationals training at the Elite Kung Fu in California this summer. “She spent two weeks training with them and because there’s been so little competition, we really wanted her to compete this year,” Wilkinson added.

The BSA president also praised Taolu coach Jecoa Burrows, sanda arbitrator Oscar Lightbourne and team manager Nolette Webb, who also accompanied the island’s athletes at the Phoenix Wushu Nationals. “It’s obviously very difficult to travel during the Covid-19 pandemic and we are just glad that we were able to pull it off and everyone was able to return home safely.”

## Bermuda Cricket Board Highlights

The Bermuda Cricket Board is actively working and preparing for the 2022 cricket season. Starting with the launch of our 2022 – 2026 strategic plan, the BCB hosted a webinar on January 13, featuring President Arnold Manders, Executive Director Calvin Blankendal and ICC Americas Regional Development Director, Fara Gorski.

As discussed, this year a strong focus will be placed on developing girls and women in cricket with the implementation of four teams in each age group U8 – U16 and the continuation of our senior women's team and the re-establishment of a women's National Team.

The BCB will also increase the number of youth players by working in collaboration with local schools, assisting with resources and offering workshops to implement the ICC Entry Level Curriculum to all primary schools.

In 2022, the high-performance committee will continue to deliver educational resources and coaching courses, training and specialist camps, an U17 boy's super-4 series and a women's T10/20 competition.

There will also be changes in infrastructure, as each member club will be presented with an infrastructure report on their grounds after completed assessments. Grounds will then be selected for upgrades within the next five years with signed partnership agreements.

In addition, the BCB will work towards the increase in a number of corporate and individual donors to help facilitate and support both youth and senior programmes.
