**Trade Mark Application No. 60180**

**Class 9:** Software; mobile application software; computer hardware; software for social networking and creating and interacting with online communities; software for creating, managing and accessing groups within virtual communities; software development tools; software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; software for use as an application programming interface (API); software for organizing events, searching for events, calendaring and managing events; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the Internet and communication networks; software for finding content and content publishers, and for subscribing to content; software for creating and managing social media profiles and user accounts; interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; software for enabling transmission of images, audio, audio visual and video content and data; software for modifying photographs, images and audio, video, and audio-visual content; software for use in taking and editing photographs and recording and editing videos; software for processing images, graphics, audio, video, and text; software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; e-commerce software; e-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; software and mobile application software providing a virtual marketplace; software for sending and receiving electronic messages, alerts, notifications and reminders; file sharing software; messaging software; search engine software; software for use in creating, managing, measuring, and disseminating advertising of others; advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; software for creating, sharing, disseminating and posting advertising; software for geo-location based advertising and product and service promotion; software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; downloadable virtual reality software; downloadable augmented reality software; downloadable mixed reality software; virtual reality software for interactive entertainment and virtual reality gaming; augmented reality software for interactive entertainment and augmented reality gaming; software for integrating electronic data with real world environments for the purposes of entertainment, education,

gaming, communicating, and social networking; software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; software for operating, configuring, and managing virtual reality headsets and controllers; software for gesture recognition, object tracking, motion control, and content visualization; software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; software for navigating a virtual reality and augmented reality environments; software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for use in creating and designing virtual reality and augmented reality software; application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; virtual reality game computer hardware; augmented reality game computer hardware; mixed reality game computer hardware; virtual reality computer hardware; augmented reality computer hardware; mixed reality computer hardware; motion tracking sensors for virtual reality, augmented reality and mixed reality technology; virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; hardware and software for operating sensor devices; electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; hardware and software for detecting objects, user gestures and commands; game software; software for game development; gaming software development tools; blockchain gaming software; downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; computer software for controlling the operation of audio and video devices; video display software; software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; software for converting natural language into machine-executable commands; software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; software, namely, an interpretive interface for facilitating interaction between humans and machines; artificial intelligence software,

namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; software for providing consumer information; software for providing electronic maps; location-aware software for searching, determining, and sharing locations; software for searching and identifying employment opportunities; software for identifying and allowing users to contact government representatives; software providing location-based weather information; software providing, linking to, or streaming news or current events information; parental control software; computer software; computer operating systems; software for enabling electronic devices to share data and communicate with each other; computer peripheral devices; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; digital media streaming devices; headsets; headphones; gaming headsets; computer gaming peripherals; video display hardware, namely, video drivers for video eyewear; cameras; batteries; battery cases; battery packs; rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; battery chargers; rechargeable external battery packs for use with mobile electronic devices; power charging and power management devices for mobile electronic devices; charging stands for mobile electronic devices; external chargers for use with computers, tablet computers, mobile devices and mobile telephones; wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; power adapters; electrical adapters, cable, and connectors; bags and cases specially adapted for mobile electronic devices; protective covers and cases for mobile electronic devices; cases for computers, smartphones, headphones, headsets and gaming devices; holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; wall mounts for mounting mobile electronic devices; stands for mobile electronic devices; holders for mobile electronic devices; remote controls for mobile electronic devices; audio speakers; electrical audio and speaker cables and connectors; electronic cables parts and fittings; electronic cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; head-mounted video display; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; SIM cards; software for use in customer relationship management (CRM); software for facilitating and arranging for the financing and distribution of fundraising and donations; software for online charitable fundraising services and financial donation services; software for use in facilitating voice over Internet

protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; communication software and communication computer hardware for providing access to the Internet; telecommunications equipment; radio receivers and transmitters; GPS receivers; software to allow users to perform e-commerce transactions via the Internet and communications networks; communications software; software that allows users to make payments and transfer funds; software that enables online users to make payments and transfer funds across multiple websites and mobile applications; electronic payment processing software; software for processing electronic transactions; computer software in the nature of a query engine; software for facilitating machine learning; software for building user interfaces; downloadable electronic publications; software for opinion polling; software allowing users to post questions with answer options; interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; software for the synchronization of data between a remote station or device and a fixed or remote station or device; voice command and recognition software, speech to text conversion software; voice-enabled software applications for personal information management; home automation and home device integration software; wireless communication software for voice, audio, video, and data transmission; software used for controlling stand-alone voice controlled information and personal assistant devices; software for voice recognition for use in connection with the transmission of voice and data; software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; software for use to connect and control Internet of things (IoT) electronic devices; computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and

electronic personal assistant devices; software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the Internet and the worldwide web for computers or other portable consumer electronic devices; software for searching television entertainment exploration guides; software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, sorting and organizing text, data, images, graphics, audio and video on a global computer network; software to enhance mobile access to the Internet via computers, mobile computers, and mobile communications devices; software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the Internet; electronic notepads; electronic personal organizers; electronic voice recording and voice recognition apparatus; portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; wearable computer hardware; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; software for accessing, browsing and searching online databases; software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video,

and multimedia content, electronic publications, and electronic games; apparatus for recording, transmission or reproduction of sound or images; apparatus for transmission of communication; apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; downloadable computer software for blockchain technology; blockchain software; downloadable computer software for managing cryptocurrency transactions using blockchain technology; cryptography software; software for cryptocurrency mining; software for cryptocurrency farming; software in the field of blockchain; software for use with cryptocurrency; software for use with digital currency; software for use with virtual currency; digital currency wallet and storage services software; software for use as a cryptocurrency wallet; downloadable computer software for use as a cryptocurrency hardware wallet; downloadable computer software for use as a digital wallet; downloadable computer software for use as an electronic wallet; computer programs and computer application software for electronic storage of data; software for providing a digital wallet; software for digital currency payment and exchange transactions; software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use as an electronic wallet; software for creating and managing electronic wallets software for electronic wallet services; downloadable e-wallets; distributed ledger software; distributed ledger platform software; software for use with distributed ledger technology; software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for executing and recording financial transactions; distributed ledger software for use in processing financial transactions; software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; software for use in financial trading; software for use in financial exchange; software for accessing financial information and market data and trends; software for providing authentication of parties to a financial transaction; software for maintaining ledgers for financial transactions; software for the management of cryptographic security of electronic transmissions across computer networks; software for encrypting and enabling secure transmission of digital information over the Internet; software for allowing users to calculate parameters related to financial transactions; software for electronic funds transfer; software for currency conversion; software for the collection and distribution of data; software for payment

transactions; software for connecting computers to local databases and global computer networks; software for creating searchable databases of information and data; software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto- collectibles, cryptocurrencies, digital currencies and virtual currencies; software for creating, executing, and managing smart contracts; software for managing payment and exchange transactions; software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; software for decentralized finance; software for developing decentralized applications; software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; software for management and governance of decentralized autonomous organizations; software for participating and voting in decentralized autonomous organizations; software for arranging and conducting auctions; software for voting; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; software for creating, selling and managing blockchain-based tokens or appcoins; software for use in an electronic financial platform; software for processing electronic payments and for transferring funds to and from others; blockchain platform software; software for managing and verifying transactions on a blockchain; software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for managing crypto currency and digital currency accounts; software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use as an application programming interface (API) for the development, testing,

and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; software for use as an application program interface (API) software for use in computer hardware device identification; software for use in authenticating user access to computers and computer networks; software for use in facilitating secure transactions; software for use in accessing, reading, tracking, and using blockchain technology; software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; software for network identification verification, authentication and management services for security purposes; downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; security tokens; software for use as a security token; software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; crypto tokens and utility tokens; software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; altimeters; application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; application programming interface (API) for use in building software applications; augmented reality glasses; augmented reality headsets; augmented reality software; augmented reality software for interactive entertainment; augmented reality software for navigating an augmented reality environment; augmented reality software for object tracking, motion control and content visualization; augmented reality software for operating augmented reality headsets; augmented reality software for users to experience augmented reality visualization, manipulation

and immersion; cables, namely, electronic cables and connection cables; cases, straps, wrist and arm bands for electronic monitoring devices; computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; computer hardware for displaying data and video; computer hardware for use in measuring heart rhythm; computer hardware for use in taking electrocardiograms; computer operating system software; computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; computer peripherals for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer peripherals for remotely accessing and transmitting data; computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the Internet and other computer and electronic communication networks;

computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the Internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for fitness and weight management; computer software for fitness, fitness assessments, and sport activities; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the Internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories

burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface (API); computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the Internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen

devices; software for creating, managing and accessing groups within virtual communities; computer software, namely, an application providing social networking functionalities; computer software, namely, an interpretive interface for facilitating interaction between humans and machines; computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; smartwatches; connection cables; eyewear; sunglasses; digital video eyewear; digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; downloadable computer software for viewing and interacting with a feed of images, audio, audio-

visual and video content and associated text and data; downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; electric cables; electrical adapters; electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the Internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; electronic navigational instruments and apparatus; fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; gesture recognition software; glasses with the function of wireless communication; global positioning system (GPS) devices; goggles for enabling virtual reality, augmented reality and mixed reality world experiences; hardware and software to view virtual images in creating virtual, augmented and mixed reality; head mounted video display; head-mounted display screen devices and their component parts, namely, video display cards; headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; loudspeakers; messaging software; microdisplays, namely, head mounted video displays and near eye video displays; mixed reality computer hardware; mixed reality glasses; mixed reality headsets; mixed reality software; mixed reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for object tracking, motion control and content visualization; mixed reality software for operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; motion tracking sensors for augmented reality technology; motion tracking sensors for mixed reality technology; motion tracking sensors for virtual reality technology; multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; multifunctional electronic devices for displaying, measuring, and uploading

to the Internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; pedometers; peripherals for mobile devices, namely, pedometers and altimeters; personal assistant software; personal digital assistants; personal electronic devices used to track fitness goals and statistics; personal fitness trackers; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; personal video display screens; portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; smart glasses; smart glasses with wired and wireless audio capability; smartwatch bands; smartwatch straps; smartwatches; smart jewelry; social assistant software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; software and firmware for enabling electronic devices to share data and communicate with each other; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; software for advertisers to communicate and interact with online communities; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and

receiving text, data, audio, image and digital files and display screens; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for online charitable fundraising services and financial donation services; software for ordering and/or purchasing goods and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; software for smart phones and other computer systems to receive data from near-eye display systems; software for social and destination mapping; software for social networking; software for streaming multimedia entertainment content; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; software for use as an application programming interface (API); software for use in creating and designing virtual reality, augmented reality and mixed reality software; software for wireless content, data and information delivery; software in the nature of a mobile application; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software, namely, an interpretive interface for facilitating interaction between humans and machines; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile

and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the Internet; virtual reality glasses; virtual reality headsets; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; wearable activity trackers; wearable computer peripherals; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; wearable digital electronic devices, namely, glasses, goggles, and headsets; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; wireless computer peripherals; light emitting diode (LED) signs; neon signs; downloadable multimedia files authenticated by non-fungible tokens (NFTs); downloadable music files authenticated by non-fungible tokens (NFTs) ; downloadable images files authenticated by non-fungible tokens (NFTs); downloadable video files authenticated by non-fungible token (NFTs) ; downloadable text files authenticated by non-fungible tokens (NFTs) ; downloadable audio files authenticated by non-fungible tokens (NFTs); downloadable image, music, audio, video and multimedia files authenticated by non-fungible tokens (NFTs); digital images, audio, video and multimedia files; computer graphics software; software for creating NFTs; software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens

(NFTs), digital collectibles, crypto- collectibles, cryptocurrencies, digital currencies and virtual currencies; software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non- fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; all included in Class 9.

**Class 42:** Design and development of computer hardware and software; providing online non-downloadable software; providing online non-downloadable software to enable development,

assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; providing online non-downloadable software that gives users the ability to engage in social networking and manage their social networking content; providing online non-downloadable software for social networking; computer services, namely, creating an online community for registered users to engage in social networking; providing online non-downloadable software for creating, managing, and interacting with an online community; providing online non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; providing online non-downloadable software for creating and managing social media profiles and user accounts; providing online non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; providing online non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking and developing software applications; providing online non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and Internet links; providing online non-downloadable software for finding content and content publishers, and for subscribing to content; providing online non-downloadable software for organizing images, video, and audio-visual content using metadata tags; providing online non-downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming,

linking, annotating, indicating sentiment about, commenting on, voting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the Internet and communication networks; application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the Internet and communication networks; providing online non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; providing online non-downloadable software for electronic messaging; providing online non-downloadable software to facilitate interactive discussions via communication networks; providing online non-downloadable software for organizing events, searching for events, calendaring and managing events; providing online non-downloadable software for modifying photographs, images and audio, video, and audio-video content; providing online non-downloadable software for use in taking and editing photographs and recording and editing videos; application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; providing online non-downloadable software for streaming multimedia entertainment content; providing online non-downloadable software for enabling transmission of images, audio, audio visual and video content and data; computer services, namely, providing search engines for obtaining data via the Internet and communications networks; providing search engines of online network environments to provide information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the Internet and communications networks; application service provider (ASP) services, namely, hosting software applications of others; providing online non-downloadable software for providing, linking to, or streaming news or current events information; providing online non-downloadable e-commerce software; providing online non-downloadable e-commerce software to allow users to perform electronic business transactions via the Internet and communications networks; application service provider (ASP) featuring application programming interface (API) software to allow users to perform electronic business transactions via the Internet and communication networks; software as a service (SaaS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the Internet and communications

networks; providing online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider (ASP) featuring application programming interface (API) software for creating, managing, tracking, reporting and measuring advertising of others; providing online non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing online non-downloadable software for creating, sharing, disseminating and posting advertising; providing online non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; providing online non-downloadable software for advertisers to communicate and interact with online communities; providing online non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; development of hardware for use in connection with electronic and interactive multimedia games; providing online non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; hosting of virtual reality and augmented reality content on the Internet; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; providing online non-downloadable software for providing authentication of parties to a financial transaction; providing an application programming interface (API) to allow users to perform electronic business transactions via the Internet; providing online non-downloadable software for processing electronic payments; platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; providing online non-downloadable software for providing electronic maps; application service provider (ASP) featuring software for providing electronic maps; providing online non-downloadable computer software for searching, determining, and sharing locations; providing online non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing online non-downloadable software for making reservations and bookings; application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; providing online non-downloadable software that gives users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; providing online non-downloadable software for

providing a virtual marketplace; providing online non-downloadable software for ordering and/or purchasing goods and services; application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; providing online non-downloadable software for searching and identifying employment opportunities; providing online non-downloadable software for identifying and allowing users to contact government representatives; providing online non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing online non-downloadable personal assistant software; providing online non-downloadable social assistant software; providing online non-downloadable software for use in facilitating voice over Internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider (ASP) services featuring software to enable or facilitate voice over Internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; providing a website featuring information in the fields of technology and software development via the Internet and communication networks; design and development of virtual reality, augmented reality and mixed reality hardware and software; design and development of video game hardware and software; computer game, electronic game and video game development services; software development; providing online non-downloadable software development tools; providing online non-downloadable gaming software development tools; providing online non-downloadable blockchain gaming software; providing online non-downloadable software for game development; providing online non-downloadable software for creating NFTs; providing online non-downloadable game software; providing online non-downloadable virtual reality software; providing online non-downloadable software for voting; providing online non-downloadable software for arranging and conducting auctions; development of interactive multimedia software; maintenance and repair of computer software; computer services, namely, cloud hosting provider services; cloud computing services; providing online non-downloadable cloud computing software for use in electronic storage of data; providing online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing online non-downloadable software featuring technology enabling users to upload and download electronic files; providing online non-downloadable file sharing software; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites,

and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; data encryption services; encrypted electronic transmission and delivery of recovered data; providing online non-downloadable software and applications for customer relationship management (CRM); application service provider (ASP) featuring software for customer relationship management (CRM); computer services, in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); providing online non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; providing online non-downloadable software for online charitable fundraising services and donation services; scientific and technological services and research and design relating thereto; industrial analysis and research services; computer hardware and software design, development, installation and maintenance; research services and consulting in the field of information and telecommunications technology; design of telecommunications apparatus and equipment; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; providing online software platform featuring technology that enables online users to make payments and transfer funds; providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the Internet and communications networks; software as a service (SAAS) services featuring software for facilitating e-commerce transactions via the Internet and communications networks; application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the Internet and communications networks; providing online non-downloadable software for converting natural language into machine-executable commands; analyzing and evaluating social media content; developing standards for third-party social media content; conducting proceedings relating to standards concerning third-party social media content; content moderation and supervision; web publishing, namely, publishing of decisions concerning third-party social media content; providing online non-downloadable computer software in the nature of a query engine; providing online non-downloadable computer software for use in performing queries on large amounts of data; providing online non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; providing online non-downloadable

artificial intelligence software for facilitating machine learning software; application service provider (ASP) featuring software to enable or facilitate machine learning software; providing online non-downloadable software for machine learning; providing online non-downloadable software tools for software development; providing online non-downloadable software for building user interfaces; application service provider (ASP) featuring software to enable or facilitate user interface building software; electronic data storage; electronic storage of photographs; interactive hosting services which allow the users to publish and share their own content and images online; providing online non-downloadable software for database management; computer network services; providing online non-downloadable software for opinion polling; providing online non-downloadable software allowing users to post questions with answer options; platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; providing online non-downloadable software featuring technology that allows users to manage their business networking accounts; providing online non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PAAS) featuring computer software platforms for personal assistant software; platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; software as a service (SAAS) featuring computer software for personal information management; providing online non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (SAAS) featuring computer software for use to connect and control Internet of things (IoT) electronic devices; software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate Internet of things (IoT) electronic devices; software as a service (SAAS) featuring computer software for use as an application programming interface (API); design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; technical support and consultation services for developing applications; information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and Internet-of-things software; providing information, news, and

commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; technological services, namely, data warehousing services; application service provider (ASP), namely, hosting computer software applications through the Internet of others; consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; software as a service (SAAS) services, namely, hosting software for use by others for use in providing an online database featuring a wide range of general interest information via the Internet; providing online non-downloadable mobile communications device software for enhancing mobile access to the Internet via computers, mobile computers, and mobile communications devices; technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; computer, mobile computer, and mobile communication device hardware and software consultation and design; providing online non-downloadable computer software that enables users to access and download computer software; providing online non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; computer software development in the field of mobile applications; providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; computer services; information technology (IT) services; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider (ASP) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the Internet and communications networks; application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; application service provider (ASP) featuring software to enable or facilitate purchasing goods and services;

software as a service (SAAS) services; platform as a service (PAAS) services; providing online non-downloadable cloud computing software; providing distributed ledger technology; providing online non-downloadable distributed ledger software; providing online non-downloadable cryptography software; providing online non-downloadable software for use with cryptocurrency; providing online non-downloadable software for use with digital currency; providing online non-downloadable software for use with virtual currency; providing online non-downloadable software for cryptocurrency mining; providing online non-downloadable software for cryptocurrency farming; providing online non-downloadable software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for implementing, executing, and recording financial transactions, providing online non-downloadable software for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing online non-downloadable software for managing and verifying transactions on a blockchain; providing online non-downloadable software for processing electronic payments and for transferring funds to and from others; providing electronic financial platform software; providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing online non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing online non-downloadable software for use in financial trading; providing online non-downloadable software for use in financial exchange; providing online non-downloadable software for use in accessing financial information and market data and trends; providing online non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing online non-downloadable software for use with virtual currency; providing software for use with digital currency; providing software for use with cryptocurrency; providing online non-downloadable software for use with digital currency wallet and storage services; providing online non-downloadable software for use as a cryptocurrency wallet; providing online non-downloadable software for use as an electronic wallet; providing online non-downloadable software for use as a digital wallet; providing online non-downloadable software for creating and managing electronic

wallets; electronic data storage services; providing online non-downloadable software for electronic funds transfer; providing online non-downloadable for software currency conversion; providing online non-downloadable software for the collection and distribution of data; providing online non-downloadable software for payment and exchange transactions; providing online non-downloadable software for connecting computers to local databases and global computer networks; providing online non-downloadable software for creating searchable databases of information and data; providing online non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing online non-downloadable software for creating, executing, and managing smart contracts; development and implementation of smart contracts; providing online non-downloadable software for managing payment and exchange transactions; providing online non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing online non-downloadable software for decentralized finance; providing online non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing online non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing online non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; distributed ledger platform software for use in processing financial transactions; providing online non-downloadable software for maintaining ledgers for financial transactions; providing online non-downloadable software for electronic funds transfer and currency conversion; providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; non-downloadable electronic publications; non-downloadable digital images, audio, video and multimedia files; non-downloadable computer graphics; platform as a service (PAAS) featuring computer software platforms for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (SAAS) featuring computer software platforms for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital

tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; data mining; providing online non-downloadable software for use with blockchain technology; software as a service (SAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; providing online non-downloadable blockchain software; design, development and implementation of audit and security software for blockchain-based platforms; providing online non-downloadable software for use in facilitating secure transactions; providing online non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design,

development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing online non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; providing online non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; providing online non-downloadable communications software; providing online non-downloadable software for use in the exchange of virtual items; providing a digital exchange; providing online non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets; application service provider (ASP); application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider (ASP) featuring software for mapping services; application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider (ASP) featuring software to enable or facilitate social and destination mapping; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider (ASP) services; application

service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice -controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; application service provider (ASP), namely, remote hosting of computer applications of others; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; computer consulting; computer programming; computer hardware and software consultation and design; computer hardware, software, application, and network consulting services; computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, curating online user-defined content and advertisements and creating social media feeds; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the Internet and communication networks; computer services, namely, providing information in the fields of technology and software development via the Internet; computer software development; creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information

and achievements with other users; design and development of augmented reality hardware and software; design and development of computer hardware and computer software; design and development of interactive multimedia software; design and development of augmented reality hardware and software; design and development of mixed reality hardware and software; design and development of virtual reality hardware and software; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the Internet; mapping services; mobile computer and mobile communications device hardware and software consultation and design; mobile computer and mobile communications device software design for others; providing online non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; providing online non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; providing online non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing online non-downloadable computer software for social and destination mapping; providing online non-downloadable computer software for tracking fitness, health and wellness goals and statistics; providing online non-downloadable software for creating personalized fitness training programs; providing online non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; providing online non-downloadable software for ordering and/or purchasing goods and services; providing online non-downloadable software for processing electronic transactions; providing online non-downloadable software for providing a virtual marketplace; providing online non-downloadable software for providing personal training services, workouts and fitness assessments; providing online non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; providing online non-downloadable software for streaming multimedia entertainment content; providing online non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing online non-downloadable software for processing images, graphics, audio, video, and text; providing online non-downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; online ad-buying platform provider, namely, providing online non-downloadable software programs for allowing buyers and sellers of online advertising to

purchase and sell advertising inventory; providing online non-downloadable cloud computing software for use in electronic storage of data; providing online non-downloadable cloud computing software for virtual reality, mixed reality and augmented reality applications and environments; providing online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; providing online non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the Internet; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the Internet and communication networks; providing Internet search engines; providing online non-downloadable software to allow users to perform electronic business transactions via the Internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities, to engage in social networking, and to manage their social networking accounts; providing online

facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; providing online non-downloadable personal assistant software; providing online non-downloadable social assistant software; providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing online non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; providing online non-downloadable software for online charitable fundraising services and financial donation services; providing online non-downloadable software for mapping services; providing online non-downloadable computer software and hosting online facilities to enable users to access and download computer software; providing online non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; providing online non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing online non-downloadable software for social and destination mapping; providing online non-downloadable software for finding content and content publishers, and for subscribing to content; providing online non-downloadable software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the Internet and communication networks; providing online non-downloadable e-commerce software to allow users to perform electronic business transactions via the Internet; providing online non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; providing online non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing online non-downloadable software applications for providing location-based weather information; providing online non-downloadable

software applications for providing, linking to, or streaming news or current events information; providing online non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; providing online non-downloadable software for taking photographs and recording audio, audio-visual and video content; providing online non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing online non-downloadable software for streaming multimedia entertainment content; providing online non-downloadable software and applications for instant messaging, voice over Internet protocol (VOIP), video conferencing, and audio conferencing; providing online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; providing online non-downloadable software for taking photographs and recording audio, audio-visual and video content; provision of Internet search engine services; rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; providing online non-downloadable software for sending and receiving electronic messages, graphics, images, audio and audio-visual content via the Internet and communication networks; software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, providing

a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; software for electronic messaging; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technological services, namely, data warehousing services; providing online non-downloadable software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing online non-downloadable software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing online non-downloadable software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; organization, management and governance of decentralized autonomous organizations (DAOs); recording, management and tracking of ownership interests in decentralized autonomous organizations (DAOs); design and development of decentralized applications; providing online non-downloadable software for developing decentralized applications; providing online non-downloadable software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; providing online non-downloadable software for management and governance of decentralized autonomous organizations; providing online non-downloadable software for participating and voting in decentralized autonomous organizations; providing online non-downloadable software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; data and information security services; all included in class 42.

**To be associated with mark nos: 60185, 60191 and 60192.**

**YUGA LABS, INC., 1430 S. Dixie Highway, Ste. 105 1075 Coral Gables, FL 33146-3108, United States of America - 02/05/2022. Address for service is: Conyers Dill & Pearman Limited, Clarendon House, 2 Church Street, Hamilton HM CX, Bermuda.**

# ETION

**Trade Mark Application No. 60302**

**Class 35:** Telecommunications network management services, namely, the administration of telecommunication systems and networks for others; all included in Class 35.

**GLOBAL CROSSING AMERICAS SOLUTIONS, LLC, 1025 Eldorado Blvd., Broomfield, Colorado 80021, United States of America - 03/06/2022. Address for service is: Alexanders, Barristers & Attorneys, Belvedere Building, 69 Pitts Bay Road, Ground Floor, Pembroke HM 08, Bermuda.**

# Inspire Greatness

**Trade Mark Application No. 60495**

**Class 7:** Vacuum cleaners; washing machines [laundry]; blenders, electric, for household purposes; dishwashers; dry-cleaning machines; wringing machines for laundry; food preparation machines, electromechanical; juice extractors, electric; ironing machines; machines and apparatus for cleaning, electric; all included in Class 7.

**To be associated with mark nos: 60496 and 60497.**

**TCL TECHNOLOGY GROUP CORPORATION, TCL Technology Building, 17 Huifeng 3rd Road, Zhongkai High Technology Development District, Huizhou, Guangdong, China - 05/08/2022. Address for service is: Firstmark Ltd., Sofia House, 3rd Floor, 48 Church Street, Hamilton HM 12, Bermuda.**

# ONETOUCH

**Trade Mark Application No. 60691**

**Class 9:** Cell phones; smartphones; foldable smartphones; headphones; loudspeakers; cabinets for loudspeakers; wearable speakers; tablet computers; wearable computers; wearable video display monitors; television apparatus; wireless routers; earphones; all included in Class 9.

**TCT MOBILE EUROPE SAS, Inmueble Le Capitole, Parc des Fontaines Champs Pierreux  
92000 Nanterre, France - 14/10/2022. Address for service is: Firstmark Ltd., Sofia House, 3rd  
Floor, 48 Church Street, Hamilton HM 12, Bermuda.**

**Trade Mark Application No. 60753**

**Section 18(4) Notice...** Proceeding by reason of Section 18(4)... UK Trademark Registration No. 00917231945.

**Class 36:** Real estate services, namely, management, financing, brokerage, leasing, sales and marketing of apartments, flats, condominiums, residential properties; management, rental and leasing of office and retail space; real estate services, namely, management, financing, brokerage, leasing, sales and marketing of timeshare properties; vacation real estate timeshare services; arranging of real estate time share exchanges; arranging of real estate time share holidays; all included in Class 36.

**To be associated with mark nos: 46038, 46041, 49123, 54604 and 54607.**

**SHERATON INTERNATIONAL IP, LLC, 7750 Wisconsin Avenue Bethesda, Maryland 20814,  
United States of America - 16/11/2022. Address for service is: Conyers Dill & Pearman Limited,  
Clarendon House, 2 Church Street, Hamilton HM CX, Bermuda.**

NOKIA

**Trade Mark Application No. 60958**

**Class 42:** Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; installation, maintenance and updating of computer software; computer programming; computer system analysis and design; computer virus protection services; computer security consultancy; engineering; electronic data

storage; monitoring of computer systems by remote access; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; consultancy in the field of energy-saving; energy auditing; provision of scientific information; scientific laboratory services; technical project studies; technological consultancy; telecommunications technology consultancy; scientific and technological analysis, research, development, planning, optimization, support, technical troubleshooting and consultancy services in the field of telecommunications devices, equipment, networks, systems, solutions and software; design, engineering and development of telecommunications devices, equipment, networks, systems, solutions and software; scientific and technological analysis, research, development, support, technical troubleshooting and consultancy services in the fields of artificial intelligence, nanomaterials, sensors, connectivity, information technology (IT), geolocation and mapping, navigation, computer hardware, computer software, computing technologies, data analytics, audio technologies, imaging and video technologies, digital media technologies, multimedia technologies, virtual reality technologies, radio technologies, medical and healthcare technology, public safety technology, energy technologies, transport technologies, wearable computing devices, printing, automation, connected vehicles, connected furniture, connected clothing, connected consumer products, connected home appliances, machine to machines (M2M) systems, presence capture solutions; scientific and technological analysis and research services in the fields of vehicles, furniture, medical, clothing, audio/video, home appliances and consumer products that can communicate via computer or telecommunication network, as well as support, consultancy and development services relating to all the aforementioned services; cloud computing; server hosting; software as a service (SaaS) services; infrastructure as a service (IaaS) services; platform as a service (PaaS) services; application service provider (ASP) services; providing on-line (non-downloadable) software and mobile applications; providing temporary use of on-line non-downloadable software for use as an application programming interface (API); providing temporary use of on-line non-downloadable software development tools; rental of computer software and hardware; rental of software and hardware for audio, imaging, video, digital media, multimedia and virtual reality; data encoding and decoding services; leasing of data processing equipment; cartography services; mapping services; map creation services; on demand design services of online and digital maps; technical digital imaging services; industrial design; off-site data backup; research in the field of environmental protection and recycling; predictive analytics services relating to computer software, computer hardware and information technology (IT); information, advisory and consultancy services relating to all the aforesaid services; all included in Class 42.

To be associated with mark nos: 34291, 60952, 60955, 60956, 60959, 60962, 60963 and 60965.

NOKIA CORPORATION, Karakaari 7, 02610 Espoo, Finland - 07/02/2023. Address for service is:  
ImPact Trademark Services LLC, 12 Cemetery Road, Pembroke, HM07, Bermuda.

The logo consists of the word "NOKIA" in a blue, sans-serif font. The letters are spaced out, with the 'O's being significantly larger than the other letters.

### Trade Mark Application No. 60959

**Colour Limitation:** The Mark is limited to the color "blue" as shown on the form of application.

**Class 9:** Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; data processing apparatus; computer software; magnetic data carriers, recording discs; compact discs, DVDs and other digital and optical recording media; telecommunications devices, apparatuses and equipment, and parts and fittings thereof; base stations for telecommunication networks, computer networks, connectivity networks and wireless communication networks; computer networks, connectivity networks and wireless communication networks; transmitters; optical, electrical, transmitter, wireless, GPS, radar, satellite, telephone, mobile data and data communications receivers; electronic controllers; electric switches; antennas; cables; data and electrical wires; amplifiers; commutators; modems; radio and microwave transmission devices and equipment; apparatus and instruments for data communication, satellite communication and telecommunication; apparatus and instruments for monitoring of telecommunication networks and data communication networks; radar apparatus; ciphering equipment; phones, smartphones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds; portable media players; electronic and digital tablet; electronic agendas; electronic book readers; notebook computers;

digital photo frames; cameras; camcorders; sensors; presence capture devices; wearable connected devices, namely devices in the form of watches, smart glasses, contact lenses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable connected devices, namely computing devices to be carried by end-users, or to be worn on or into the body of end-users or to be incorporated into clothing, footwear, headgear, contact lenses, bags, textiles, fabrics, tissue and any kinds of materials and portable goods and accessories and that can be used for computing, sensing scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable and portable computing devices; smartwatches; head-mounted displays; devices with electric, electronic and digital functions that can connect to computer networks and which have computing, sensory, scanning, communication, data-storage, biofeedback, physiological-tracking, health-monitoring, fitness-monitoring, predictive or augmented-reality capabilities, in the form of glasses, gloves, watches, clothing, footwear, headgear, bands and helmets; batteries; chargers; printers; covers for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; audio, imaging, video and radio apparatus and instruments; speakers; headsets; microphones; television and multimedia apparatus; display screens; hands free kits for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; electronic publications; Global Positioning System (GPS) apparatus, instruments and devices; navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; apparatus and software for GPS navigation and mapping systems; electronic chips; microprocessors; semi-conductors; smart cards (integrated circuit cards); printed circuits; remote control apparatus; downloadable sound, video and image files; electronic pens; electronic tags for goods; computer software, computer hardware and wearable comp allowing the remote monitoring, control and command of vehicles and vehicle parameters, of household appliances and furniture, of energy management systems, of home automation systems, of security systems, of home entertainment and audio/video equipment, of telecommunication devices, social media devices and computing devices, and of fitness and health telecare equipment; machine to machine (M2M) communications equipment and devices; computer game software; video game cartridges; memory cards for video game machines; software applications; spectacles; smart glasses; binoculars; spectacle frames; optical lenses; contact lenses; optical goods; optical glass;

application programming interfaces (APIs); computer software and hardware allowing to listen to music and read audio/video files, to send and read out electronic messages, to take, edit, read, display and share digital photographs, sounds and videos, to browse on the Internet, to chat and to connect to social networks; computer digital maps; software applications for providing location-based and contextually-relevant advertisement; vision recognition software; audio recognition software; computer software and hardware for the provision and rendering of travel and tourism advice and for providing information about location of entertainment venues, local education institutions, hotels, landmarks, museums, public transportation, traffic, parking information, weather, price comparison, shopping, advertisement, health and fitness, employment information, social activities and cultural events, Points of Interest (1201s), sporting events, food and drink; location tracking devices; software applications and hardware enabling the user to obtain location-related and contextually-relevant information; computer software and hardware providing health, fitness and well-being information; equipment and apparatus for measuring and/or recording different physiological or other parameters, including heart rate, blood pressure, weight, sleep quality, ventilation, body temperature, skin conductivity, blood glucose, lactic acid, time, speed, acceleration, altitude, environmental temperature, humidity and purity; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software and hardware allowing online payment and payment at distance; computer software and programs, namely algorithms for the compression, decompression, encoding, decoding and processing of audio, video and imaging data; audio, video and images encoder/decoder(codec); computing and communication hardware and software for use by public safety agencies; air analysis apparatus; alarms; anti-theft warning apparatus; apparatus and instruments for astronomy; automated teller machines (ATM); bar code readers; computer memory devices; control panels (electricity); detectors; diagnostic apparatus, not for medical purposes; distance measuring apparatus; downloadable ring tones for mobile phones; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of railway points and of signals; electronic notice boards; encoded magnetic cards and identification bracelets; extinguishers; fiber optic cables; heat regulating apparatus; high-frequency apparatus; holograms; electric apparatus for remote ignition; intercommunication apparatus; interfaces for computers; lasers, not for medical purposes; life-saving equipment; light-emitting diodes [LED]; locks, electric; loudspeakers; masts for wireless aerials; material testing instruments and machines; meteorological instruments; metronomes; monitoring apparatus, electric; monitors; optical fibers; optical data media; particle accelerators; pedometers;

photocopiers; photovoltaic cells; precision balances; pressure measuring apparatus; printers for use with computers; probes for scientific purposes; radar apparatus; radiological apparatus for industrial purposes; radiotelephony sets; railway traffic safety appliances; telemeters; refractors; regulating apparatus, electric; remote control apparatus; satellites for scientific purposes; scales; scanners; signs, luminous; simulators for the steering and control of vehicles; gradient indicators; sonars; sounding apparatus and machines; steering apparatus, automatic, for vehicles; stereoscopic apparatus; teleprinters; telescopes; testing apparatus not for medical purposes; theft prevention installations, electric; thermometers, not for medical purposes; thermostats; traffic-light apparatus; USB flash drives; walkie-talkies; weighing machines; X-rays producing apparatus and installations, not for medical purposes; scales for medical and surgical purposes; displays and sensors for vehicles; parts, fittings and accessories of all the aforementioned goods; all included in Class 9.

**To be associated with mark nos: 34291, 60952, 60954, 60956, 60957, 60958, 60961, 60963, 60964 and 60965.**

**NOKIA CORPORATION, Karakaari 7, 02610 Espoo, Finland - 07/02/2023. Address for service is: ImPact Trademark Services LLC, 12 Cemetery Road, Pembroke, HM07, Bermuda.**

### **Trade Mark Application No. 60960**

**Colour Limitation:** The Mark is limited to the color "blue" as shown on the form of application.

**Class 12:** Vehicles; apparatus for locomotion by land, air or water; driverless vehicles (autonomous vehicles); electric vehicles; automobiles; cars; cycles; bicycles; motorcycles; boats; trucks; locomotives; wagons; aircrafts; cable transport apparatus and installations; civilian and military drones; aeronautical apparatus, machines and appliances; anti-theft devices for vehicles; engines, electric motors and propulsion mechanisms for vehicles; parts, fittings and accessories of all the aforementioned goods; all included in Class 12.

**To be associated with mark nos: 60953, 60955 and 60962.**

**NOKIA CORPORATION, Karakaari 7, 02610 Espoo, Finland - 07/02/2023. Address for service is:  
ImPact Trademark Services LLC, 12 Cemetery Road, Pembroke, HM07, Bermuda.**

**Trade Mark Application No. 60961**

**Colour Limitation:** The Mark is limited to the color "blue" as shown on the form of application.

**Class 35:** Advertising; business management; business administration; office functions; arranging subscriptions to telecommunication services for others; providing business and commercial information; commercial or industrial management assistance; collection, compilation, processing, management, updating and maintenance of data in computer databases; compilation of statistics; data search in computer files for others; demonstration of goods; computerized file management; market studies; office machines and equipment rental; provision of an on-line marketplace for buyers and sellers of goods and services; arranging and conducting of commercial, trade and business shows and exhibitions; outsourcing services (business assistance); procurement services for others; wholesale, retail and online store services connected with the sale of apparatus and equipment for recording, capturing, storing, processing, editing, displaying, transmitting and reproducing sound, images or video; wholesale, retail and online store services connected with the sale of telecommunications, information technology (IT) and networking devices, equipment, systems and software; wholesale, retail and online store services connected with the sale of phones, handheld mobile digital electronic devices, wearable computing devices, horological and chronometric instruments, navigation devices, computers, computer hardware and computer software; wholesale, retail and online store services connected with the sale of energy management systems, home automation systems and security systems; wholesale, retail and online store services connected with the sale of medical, fitness and health-monitoring equipment and apparatus; wholesale, retail and online store services connected with the sale of heating, cooking, cooling and lighting apparatus and equipment; information, advisory and consultancy services relating to all the aforesaid services; all included in Class 35.

**To be associated with mark nos: 34291, 60952, 60954, 60957, 60959 and 60964**

**NOKIA CORPORATION, Karakaari 7, 02610 Espoo, Finland - 07/02/2023. Address for service is:  
ImPact Trademark Services LLC, 12 Cemetery Road, Pembroke, HM07, Bermuda.**

The NOKIA logo is displayed in a light blue, sans-serif font, centered on the page.

**Trade Mark Application No. 60962**

**Colour Limitation:** The Mark is limited to the color "blue" as shown on the form of application.

**Class 37:** Construction services; installation and repair services; rental of construction equipment; electric appliance installation and repair; machinery installation, maintenance and repair; installation, maintenance and repair of computers, tablet computers, computer hardware, computer peripherals, phones, smartphones, electronic organizers, smartwatches, cameras, audio and video equipment, wearable and portable computing devices, vehicles, office machines and equipment, household appliances, energy management systems, home automation systems, lighting devices and equipment, sanitary installations, security systems, home entertainment, fitness and health equipment, medical apparatus and instruments, machine to machine (M2M) communications equipment, electric and electronic apparatus, optical and navigation devices; installation, maintenance and repair of telecommunications and networking devices, equipment and systems; information, advisory and consultancy services relating to all the aforesaid; all included in Class 37.

**To be associated with mark nos: 60953, 60955, 60958, 60960 and 60965.**

**NOKIA CORPORATION, Karakaari 7, 02610 Espoo, Finland - 07/02/2023. Address for service is:
