COMMENTS FROM THE REGISTRAR GENERAL

I have the pleasure of presenting the Annual Report for the year ended December 31, 2024 which has been diligently prepared in accordance with Section 19 of the Registration (Births and Deaths) Act 1949. In full recognition of the role of the Registrar General in the compilation of vital statistical information and the important role that it plays in planning for the provision of services in areas such as education, health and tourism to name a few, I have taken the necessary steps to ensure that the highest quality is maintained in the recording, collating and presenting of the data to be included in the Annual Report.

This Annual Report focuses principally on vital statistics in respect of the resident population of Bermuda. The Annual Report seeks to provide an illustrative statistical digest of vital events such as live births, deaths, foetal deaths (stillbirths), marriages, domestic partnerships, adoptions and re-registrations of births.

In the preparation of this report, I have relied on information received from the Records Office of the King Edward VII Memorial Hospital relating to births; from the local funeral directors and medical practitioners in relation to deaths; from local residents and visitors in relation to domestic partnerships; and from local marriage officers and Masters of Bermuda registered ships in relation to local and maritime marriages respectively. The occurrence of sudden deaths is reported to the Registrar General by the Coroners' Office. Officers of the Magistrates' Court are responsible for informing the Registrar General of adoptions that take place on the Island.

The excess number of deaths over live births for each year since 2018 has been added to the base figures to compute the population statistics. No consideration has been given to the effect of emigration or immigration on the population.

I am grateful and acknowledge the expertise and commitments demonstrated by my staff in the provision of vital registration services to local and overseas residents in 2024 and hereby submit my Annual Report for the year ended December 31, 2024.

Aubrey Pennyman
Registrar General

GENERAL INFORMATION

Births

The Registrar General is notified by the King Edward VII Memorial Hospital's Medical Records Department of the births of children born there on a weekly basis. When a child is born at a location other than the hospital, notification is made by the person or persons who attended the birth.

For the year ended 31st December 2024 the total number of live births recorded in respect of residents was 425, a decrease of 11 or 2.6% from the 436 births recorded in 2023.

The live birth rate of the population decreased by 0.2 point per thousand from 6.9 points recorded in 2023 to 6.7 points in 2024.

The number of births that occurred out of wedlock in 2024 decreased by 19.8% from the number of out of wedlock births for the previous year. The out of wedlock distribution of births occurring during the five-year period 2020 to 2024 ranged from a high of 50.9% in 2023 to a low of 41.9% in 2024.

Deaths

The Registrar General receives notices of deaths occurring on the Island and within Bermuda's territorial waters from local funeral directors. The notices of deaths are sent to the Registrar General by the Coroners' Office in cases where inquests have been held into the causes of deaths.

A total of 616 deaths were recorded for the year ended 31st December 2024. This figure consists of 602 deaths of residents and 14 deaths of non-residents. There were no stillbirths recorded in 2024.

A death rate of 9.5 per thousand of the population for 2024 reflects a decrease of 0.3 points per thousand from 9.8 recorded in 2023.

Marriages

The Registrar General received information pertaining to marriages performed on the Island from local marriage officers. Information in respect of marriages that take place on the high seas aboard Bermuda registered ships is provided by the Masters of these ships.

There were 329 marriages performed in Bermuda for the year ended 31st December 2024, a 5.8% increase from the 310 marriages recorded in 2023. Out of the 329 marriages, 117 or 35.6% of the marriages took place between parties who were both non-residents; 175 or 53.2% of the marriages between parties who were both residents and 37 or 11.2% of the marriages between a resident party and a non-resident party. There was a 4.6% increase in maritime marriages recorded in 2024 when comparing 345 marriages to 329 maritime marriages recorded in 2023. The increase was due to the efforts of the cruise line industry adding new ships to their fleets to expand services for weddings ceremonies onboard their ships.

Domestic Partnerships

The Registrar General received information pertaining to domestic partnership ceremonies, performed on the Island, from domestic partnership officers or applications received from local residents. Information in respect of domestic partnership ceremonies that take place on the high seas aboard Bermuda registered ships is provided by the Masters of these ships.

There were nine domestic partnership ceremonies performed in Bermuda for the year ended 31st December 2024. This represents a 80% increase from the five domestic partnerships recorded in 2023. Of the nine ceremonies recorded, seven ceremonies took place between parties who were both residents and two ceremonies took place between couples where one was a resident and one was a non-resident.

Table 1.0 contains a summary of the statistics of births, deaths and population estimates as of 31st December 2024.

Table 1.0

Resident Population

The accuracy of the resident population figures is limited by the availability and reliability of data on both emigration and immigration. While births and deaths are captured through established civil registration systems, movements into and out of Bermuda are not consistently recorded in a manner that allows for precise measurement of net migration. As a result, the resident population estimates may not fully reflect the true number of individuals entering or leaving the country during the reporting period, which introduces a degree of uncertainty into overall population counts and demographic analysis.

The statistics compiled by the Registry General do not take into consideration any effects on the population due to emigration or immigration.

BIRTHS

Distribution of Live Births by Sex and Natal Status – 2020 to 2024

In 2024, the total number of 425 live births reflects a decrease of 11 or 2.6% over the previous year. The live births in respect of residents recorded in 2023 were 436. Out of the total number of live births recorded in 2024, 204 were female and 221 were male. In 2023, 211 male and 225 female live births were recorded.

There were no home births or babies born at the parent's homes in 2024. This was the same as in 2022 with nil home births recorded.

The total number of births for the year 2024 born out of wedlock was 178, a decrease of 44 from the previous year. A cumulative total of 2,375 live births were recorded for the five-year period from 2020 to 2024. The overall percentage of live births occurring out of wedlock was 47.4% over the same five-year period.

Table 2.0

Distribution of Live Births by Sex and Natal Status – 2020 to 2024

	In Wedlock			Out of Wedlock			Live Births			% Out of Wedlock
Year	Male	Female	Total	Male	Female	Total	Male	Female	Total

Total	636	614	1,250	558	567	1,125	1,194	1,181	2,375	47.4

Distribution of Live Births by Parish

The majority of babies are born at the King Edward VII Memorial Hospital in Paget parish. However, for the purpose of this Report, the statistics shown in Table 2.1 below, relate to the parishes of residence of the mothers of the newborns at the time of birth and not to the parishes where the babies were actually born. The highest number of births by parish out of an island-wide total of 425 was recorded among the residents of Pembroke parish who accounted for 84 or 19.8% followed by the residents of Warwick parish who accounted for 79 or 18.6% of the total number of births recorded.

Table 2.1
Distribution of Live Births by Sex, Natal Status and Parish – 2024

	In Wedlock			Out of Wedlock			Grand Total	% Out of Wedlock

Total	126	121	247	95	83	178	425	41.9%

Multiple Births

The record number of sets of twins born in a single year continues to stand at 19 for the year 2013. In 2024, eleven multiple births were recorded, which was an increase of eight births compared to the three births recorded in 2023. Five sets consisted of both male children, three sets consisted of both female, and three sets consisted of a male child and a female child out of the eleven sets of twins born in 2024.

Table 2.2
Distribution of Multiple Births by Sex – 2020 to 2024

Year	Both Male	Both Female	Male & Female	Annual Total
2020	2	0	2	4
2021	1	1	2	4
2022	2	5	5	12
2023	0	2	1	3
2024	5	3	3	11
Total	10	11	13	34

Distribution of Live Births by Age of Mother

Women between the ages of 30 and 34 years continue to account for the highest number of the babies born in 2024 at 158 or 37.2%. This remains consistent with the figures over the past five years. For the period 2020 to 2024, women in the age group 35 to 39 years accounted for the second highest number of babies, and women in the age group 25 to 29 years account for the third highest number of babies. The two age groups (30 – 34 year olds and 35 – 39 year olds) were responsible for 66.8% of the 2024 births. One baby was born to a mother under the age of 16 in 2024, and there was one baby born to a mother in the age group 16 to 19.

Figure 2.0 shows the distribution of births by age of mother and natal status for the year ended December 31st, 2024. It can be seen from Figure 2.0 that married women between the ages of 30 and 34 years comprised the group responsible for the largest number of babies born.

Figure 2.0
Distribution of Live Births by Age of Mother and Natal Status – 2024

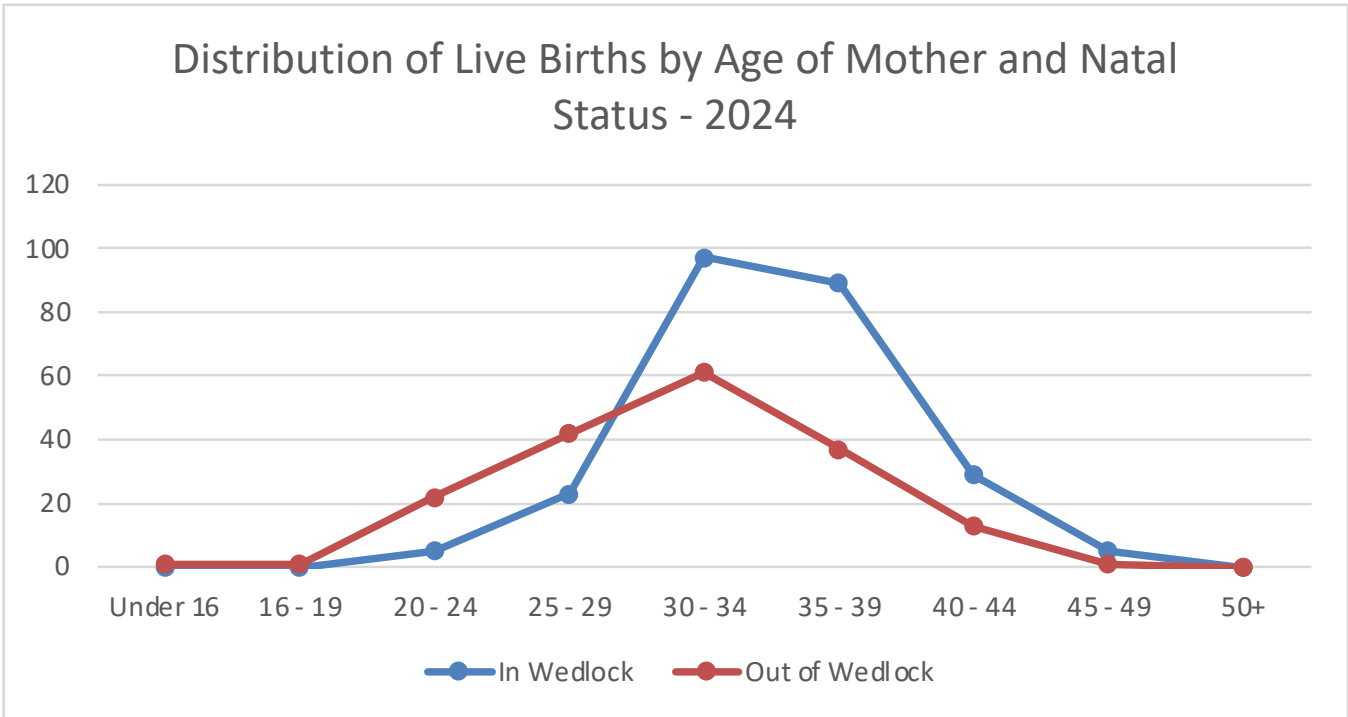

Table 2.3 shows the distribution of live births according to the age group of the mother for the five-year period 2020 to 2024. The peak in out of wedlock births occurs with respect to mothers in the 30 – 34 year old bracket and peak for in wedlock births occurs also in respect of mothers in the 30 – 34 years old bracket for 2024.

Total Live Births	1	19	193	380	838	703	218	21	2	2,375

Distribution of Live Births by Nationality

It is important to note that the following statistics on the nationality of new-borns are compiled based on information provided by parents at the time of registration of their children's births.

There were 247 babies born in wedlock in 2024. Seventy-three babies or 29.6% were born of parents who are both Bermudian; 87 or 35.2% were born of parents who are both non-Bermudian; and 87 or 35.2% were born where one of the parents is Bermudian and the other a non-Bermudian.

There were 178 babies born out of wedlock in 2024. One hundred and forty-two babies or 79.8% have parents who are both Bermudian; 12 or 6.7% have parents who are both non-Bermudian; and 24 or 13.5% have one Bermudian parent and the other a non-Bermudian parent.

Children with two non-Bermudian parents account for 99 or 23.3% of the total number of births in 2024, as compared to the 106 or 24.3% of the total births in 2023.

Over the five year period, 2020 to 2024, the percentage of children born to parents who were both Bermudian ranged from 50.6% in 2024 to 56.2% in 2020. For this same period, the percentage of children born to one Bermudian parent and one non-Bermudian parent ranged from 20.2% to 26.1%.

The nationalities of the non-Bermudian parents, gathered for statistical purposes, represent over 39 different countries. The most frequently identified countries are Canada, Jamaica, Philippines, Portugal, United Kingdom, and United States of America.

Additional Vital Events

Re-registrations

Re-registration is the process by which the births of children born out of wedlock are registered as if born in wedlock on the marriage of their biological parents. In 2024, there were two re-registrations conducted in the Registry General.

Adoptions

In 2024 there were no adoptions recorded.

MARRIAGES

Statistics Relating to Marriages – 2020 to 2024

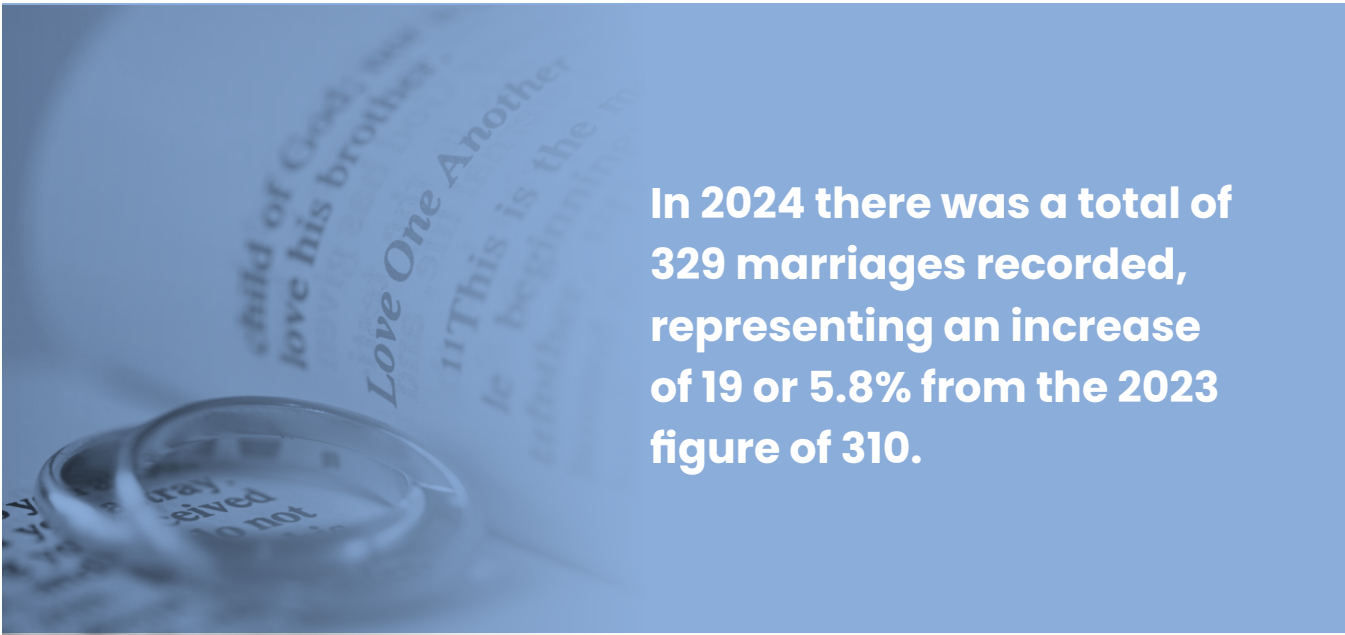

Marriage statistics include all marriages that took place in Bermuda irrespective of the country of residence of the parties. There was a total of 329 marriages recorded for the year ending December 31, 2024, representing an increase of 19 or 5.8% from the 2023 figure of 310.

Over the past five years, the number of civil ceremonies performed by the Registrar General totalled 594 or 38.7% of the total of 1,536 marriages recorded for that period. The remaining 942 marriages were religious ceremonies held at places of worship throughout the Island and other venues.

Table 3.0

Distribution of Marriages by Type of Ceremony – 2020 to 2024

Year	Religious/Denominational Marriages	Civil Marriages	Total
2020	134	114	248
2021	201	112	313
2022	208	128	336
2023	192	118	310
2024	207	122	329
Total	942	594	1,536

In 2024 there was a total of 329 marriages recorded, representing an increase of 19 or 5.8% from the 2023 figure of 310.

Distribution of Marriages by Religion/Denomination

In 2024, there were 207 religious marriages that were held at places of worship or venues other than church buildings. This was an increase of 7.8% from the 192 figure recorded in 2023.

Marriage Venues

The Registry General conducted 122 civil marriage ceremonies or 37.1% of all marriages taking place in 2024. Of the 122 civil marriage ceremonies performed, thirteen ceremonies were conducted at alternative approved locations provided for under the Marriage (Alternative Approved Locations) Regulations 2016. There were 46 marriages celebrated at places of worship identified in Table 3.2 below. Also, there were 161 marriages that were performed at other venues, of which 90 took place in either a hotel, restaurant, guest house or club; and a further 71 marriages were performed in either a home, garden, park, on a beach or boat. Additionally, 49.2% of the marriages performed in 2024 took place at locations other than places of worship or the Registry General.

Table 3.2 shows the distribution of marriages by parish and venue. Pembroke parish continues to record the highest number of marriages, primarily due to the high incidence of civil marriage ceremonies. Sandys, Warwick and Southampton parishes also accounted for a relatively large number of marriage ceremonies due to the number of ceremonies conducted within their boundaries at venues other than places of worship.

³Marriages between a party who was a resident and a non-resident party

Maritime Marriages

There was a total of 345 marriages performed on board 28 Bermuda registered ships in 2024. This total represents an increase of 16 or 4.6% from the 2023 total of 329. The increase was due to the efforts of the cruise line industry to expand services for weddings ceremonies onboard their ships.

During 2024, there was a combined total of 674 marriages recorded, which consisted of 329 marriages performed in Bermuda and 345 maritime marriages performed onboard Bermuda registered ships.

DOMESTIC PARTNERSHIPS

The Domestic Partnership Act 2018 allows for the formalization of unions between partners. There were nine domestic partnership unions recorded for the year ending December 31, 2024.

Total	20 couples	4 couples	8 couples	32 couples

¹ Domestic Partnerships between parties who were both residents

² Domestic Partnerships between parties who were both non-residents

³ Domestic Partnerships between a party who was a resident and a non-resident party

Distribution of Domestic Partnerships by Residential Status of Partners

During 2024, the domestic partnership unions between residents accounted for 7 or 77.8% of the total number of ceremonies taking place.

Three of the domestic partnerships formalized in 2024 were between male and female couples, two were between male couples and four were between female couples.

Maritime Domestic Partnerships

There were no domestic partnership ceremonies performed on board any of the 28 Bermuda registered ships in 2024.

DEATHS

Death Statistics Including Stillbirths – 2020 to 2024

The number of deaths of residents recorded in 2024 was 602, a decrease of 20 or 3.2% from 622 deaths recorded in 2023. There were no stillbirths recorded in 2024, as opposed to one stillbirth recorded in 2023.

Table 5.0 contains a breakdown of deaths over the period 2020 to 2024 by sex and stillbirths. The figures show that the total number of deaths among males exceeded that among females for the period. The number of stillbirths recorded for the period ranged between 0 and 2 per year with an average of 0.8 over the five year span.

Table 5.0
Distribution of Deaths by Sex and Stillbirths – 2020 to 2024

Year	Male	Female	Total	Stillbirths
2020	328	238	566	0
2021	359	368	727	1
2022	307	278	585	2
2023	306	316	622	1
2024	313	289	602	0
Total	1,613	1,489	3,102	4

A death rate of 9.5 per thousand of the population for 2024 reflects a decrease of 0.3 points per thousand from 9.8 recorded in 2023.

Distribution of Deaths by Age and Sex – 2020 to 2024

(Excluding stillbirths and non-resident deaths)

The average age at death was 73.1 years for males, 79.5 years for females and 76.2 years for all persons in 2024.

¹ Excludes non-resident deaths and stillbirths

Distribution of Deaths by Age and Parish of Residence of the Deceased – 2024

(Excluding stillbirths and non-resident deaths)

Table 5.3 contains a breakdown of deaths by parish of residence of the deceased within specific age groups. Pembroke Parish residents recorded 104 or 17.3% of deaths in 2024. This figure which represents the largest number of deaths in a single parish for the total number of deaths recorded for the year.

Eight deaths were recorded in 2024 among centenarians. Two of these decedents were resident in Warwick; two decedents were resident in St. George's; and Hamilton, Pembroke, Southampton and Sandys each had one decedent who was a resident.
